- **Databases**
MySQL, PostgreSQL, MariaDB, MongoDB, SQLite, Firebase
- **Others**
WordPress, Python, CloudFlare, OAuth/JWT, Laravel Sanctum

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer & AI Specialist | Freelance / Contract
2015 – Present | Remote (Clients in 12+ Countries)

Deliver end-to-end digital solutions for global clients across e-commerce, booking systems, healthcare, fintech, real estate, and internal enterprise operations. Leverage 11+ years of expertise in web development, networking, and AI integration to build scalable, secure, and high-performance systems.

Key Projects:

- AI-Powered Media & PR Platform (2025–Present) – Developing an advanced platform for a Saudi-British company offering image/video/content generation and PR Press Release services across the Arab world, UK, and China. Built with OpenAI, Claude, and Stable Diffusion.
- Job Matching Platform for Algeria (2025–Present) – Building a comprehensive recruitment platform connecting job seekers with private educational institutions in Algeria, with full legal coverage and advanced application management systems.
- Banking Operations System (UAE, 2025) – Built an internal system managing receipts, payments, client records, employee payroll, and expenses for a financial institution in Abu Dhabi.
- Educational Platform (Algeria, 2024) – Created a multi-role learning platform (students, trainers, consultants, admins) with integrated course management.
- Booking Systems (2023–2024) – Developed advanced platforms for car maintenance services, chalet reservations, and medical appointments with secure payment integration.
- Visa & Residency Platform (Germany, 2024) – Built a platform streamlining visa applications and legal consultation management.

Web Developer | Corporate Digital Solutions

2022 – 2025 | Remote (Middle East & Europe)

Developed official websites and digital service platforms for corporations across the UAE, Germany, Iraq, and Turkey. Focused on modern responsive design, user experience, and high-performance standards to meet diverse business needs.

Key Contributions:

- Built corporate websites with integrated appointment booking systems and client communication modules.
- Developed digital platforms for medical conferences, scientific articles, and seminars.
- Created integrated healthcare solutions with booking, patient intake, and hospitality features.
- Designed websites for educational organizations and study abroad programs.
- Launched responsive e-commerce solutions with product showcases and secure client inquiry systems.

Web Developer | E-Commerce & Arab Markets

2023 – 2025 | Remote (Iraq, Palestine, Syria)

Delivered custom e-commerce platforms, product showcases, and service websites for businesses in the Arab market. Focused on user-friendly interfaces, secure payment integration, and seamless client communication.

Key Contributions:

- Built full-featured e-commerce platforms for apparel and general products with cart and checkout systems.
- Developed mobile credit and game card recharge platforms with secure transaction handling.
- Created complete chalet reservation platforms with availability management and booking features.
- Designed gold trading and investment platforms with product showcases and client inquiry systems.
- Developed digital library platforms for online book purchasing and reading.

Network Administrator & Certified Trainer | Syria

2018 – Present

Certified **CCNA R&S, CCNA Security, and CCNP** trainer with 8+ years of experience in enterprise network infrastructure, security protocols, and server administration.

Key Responsibilities:

- Managed enterprise networks, firewalls, VPNs, and security configurations.
- Administered servers using cPanel, Plesk, and Linux.
- Trained 20+ professionals across Syria, UAE, Iraq, and Saudi Arabia using Packet Tracer, GNS3, and virtual environments.
- Delivered hands-on workshops in routing, switching, and cybersecurity fundamentals.

EDUCATION

Master of Science in Web Science (2024 – Present)

Syrian Virtual University (SVU)

- **Thesis:** "Developing a Smart Real Estate Services Platform in Syria" – supervised by Dr. Majeda Bakour.
- Focus: AI integration, data analysis, and user-centric platform design.

Bachelor of Computer Systems & Networks Engineering (2013 – 2019)

University of Homs, Syria

- **GPA:** 80%
- **Graduation Project:** "Developing an E-Commerce Website using PHP Laravel Framework" – supervised by Dr. Zainab Kallouf.
- **Score:** 94/100

CERTIFICATIONS

- CCNA Routing & Switching
- CCNA Security
- CCNP (Cisco Certified Network Professional)

AWARDS & RECOGNITION

- **2018–2019:** Top 3 university project – Meal reservation application for a restaurant in Homs.
- **2019–2020:** Top 3 graduation project – E-commerce platform using PHP Laravel.
- **2021–2022:** Top 3 graduation project – Legal consultancy website for the Justice Palace in Syria (Team Lead & Mentor).

LANGUAGES

- **Arabic:** Native
- **English:** Professional working proficiency
